

ACME Corporation Q4 2025 Earnings Press Release

Cash flow from operating activities for the fourth quarter of fiscal 2025 totaled USD 16,626 million, compared to USD 15,549 million in the prior quarter. Cash used in investing activities was USD 4,200 million.

Cash used in financing activities was USD 8,150 million.

Free cash flow for the quarter was USD 12,426 million.

Notes to the cash flow statement.

Operating cash flow reflects strong demand for the Hopper and Blackwell platforms. Investing outflows are primarily capital expenditures and strategic investments. Financing outflows reflect share repurchases and dividends paid during the quarter.
